Sun Status

Sun provides the JVM for Solaris, Windows and Linux platforms.

Sun's next distribution will be 1.3.1_02 on 12/20 and 1.3.1_03 3/28/02

HP and other licensees take a source distribution from Sun, add or change the code and issue their own version

HP Status

HP's 1.3.1_01 release actually matches Sun's 1.3.1

HP is planning a 1.3.1_02 release which is due to ship in a few weeks, it should contain all bug fixes from Sun's 1.3.1_01.

When HP readies a maintenance release, they include all bugs which Sun fixed in the maintenance releases Sun has released to date.

HP's upcoming 1.3.1_02 should include bugID: 4294758.
