

expressed or implied in the KPC Program document. This assurance specifically includes those provisions included in paragraph 3.2 and Appendix "C" of the COE KPC Program document.

E. The Vendor applications platform conforms to all of the Government Supplied Software Compliance criteria identified in paragraph 3.3 of the COE KPC Program document. In addition, all of the validation procedures identified in paragraph 3.3 and Appendix "D" were successfully executed without any failure or inconclusive results.

F. The Vendor applications platform conforms to all of the Security Compliance Criteria identified in paragraph 3.4 and Appendix "E", Part 1 of the COE KPC Program document. The Automated Security Test approved for use in this validation is the functional equivalent of the sample Automated Security Test provided in Appendix "E", Part 2 of the COE KPC Program Document and is an equally effective method for demonstrating satisfaction of the security compliance criteria provided in Appendix "E", Part 1 of the COE KPC Program document. In addition, the Automated Security Test approved for use in this validation, as identified in paragraph 3.4 and Appendix "E", Part 1 of the COE KPC Program Document, was successfully executed without any failure or inconclusive results.

G. The Vendor applications platform conforms to all of the Internet Interoperability Demonstration compliance criteria identified in paragraph 3.5 of the COE KPC Program document. In addition, all of the test procedures identified in paragraph 3.5 and Appendix "F" of the COE KPC Program Document were successfully executed without any failure or inconclusive results.
